

The Shuttle

brings computers and the internet to you

**A mobile facility for computer familiarisation, education, and training.
or
an internet facility for your event, show or festival.**

Provided by **i-TRUST** the charity IT support team for charities & voluntary groups in the region

The i-Trust Shuttle is a self contained mobile ICT suite with a satellite internet link.

The Shuttle provides access to computers for people:

- who cannot afford them
- where there is no internet connection available
- where there is no communal computer facility
- who cannot drive and public transport is poor
- who cannot get to a communal computer facility
- who are elderly or infirm
- who have difficulty using conventional computer equipment

The Shuttle is also available as a self contained internet facility for your local event, show or festival.

Whilst the Shuttle can be used in all weathers, and has a ramp for easy access, the ICT equipment can also be assembled for use in a community building if required.

The Shuttle contains:

- six laptop workstations
- two adaptable for wheelchair users
- satellite internet connection
- printer/scanner/copier equipment

The Shuttle also has a selection of accessibility aids for people who have difficulty using conventional computer equipment.

As well as a technician i-Trust can also provide trainers to help people new to computing and the internet.

The Shuttle's amazing appearance adds an exciting attraction to any event as people of all ages find it a great talking point.

Hire rates:

The Shuttle - tba per day ICT equipment only - tba per day

ICT Trainer - tba per day
