

Norfolk Unites is a partnership of Norfolk Third Sector learning and skills providers

We aim to identify and facilitate ways in which the Norfolk Third Sector can work together with other organisations, other counties and all sectors more effectively to better support its service users, volunteers and staff.

Norfolk Unites is about joining the dots, enabling members to be 'on the radar' and 'in the know' and increasing the effectiveness and efficiency with which we are all working. We do this using the Norfolk Unites Directory and Funding page (see other side).

In all the work of Norfolk Unites, the beneficiary is at the core, seeing what we can do to more effectively support our service users' progression.

Norfolk Unites: Our core values

- Committed to partnership and collaborative working
- Championing cross-sector recognition of Norfolk Third Sector learning and skills provision
- Actively seeking learning and skills opportunities
- Open; Transparent; Fair; Inclusive and; Equal – COMPACT compliant
- Dynamic information exchange
- By the members, for the members

For more information see www.norfolkunites.org.uk/about-us/

The Norfolk Unites Directory enables organisations or individuals to search for Norfolk Third Sector (voluntary and community sector) organisations by location, service user or service, or any mix of the 3 categories:

- Any Norfolk Third Sector service can, at the click of a button, be found by any individual or organisation – e.g. 'Working with jobseekers' in Great Yarmouth
- Puts organisations on the radar for delivering on or providing referrals to specific contracts
- Receive automatic news alerts
- Learning and skills providers of ANY SECTOR can also register their details on the Directory so that people can identify the full range of available delivery.

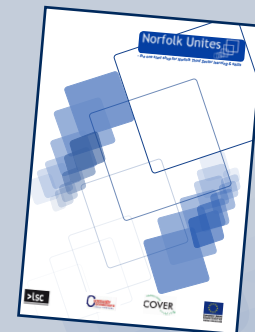

We have also brought together useful information on Train to Gain, Apprenticeships, Teaching in the Lifelong Learning Sector qualifications etc.

The Funding page:

- Brings together current opportunities into one easily accessible place
- Enables organisations to advertise for partners.

The Partnerships page:

- Enables organisations to join networks of like-minded organisations
- Enables networks to 'advertise' their group to increase sign up.
